

Video - Cisco Telepresence Vision (1 min)

I would like to thank you all for joining us.

Cisco TelePresence powers the new way of working where everyone, everywhere, can be more productive through face to face collaboration.

All right, what have we got?

Thirty year old male, motor vehicle accident, possible trauma. You should be seeing his vitals by now.

We're changing the way people work, live, play, and learn.

Good morning.

Good morning!

How many of you know how a wind turbine works? Great.

And around the world each day, we transform organizations by transforming our customer experiences.

If you look at the specs that I'm sharing, you'll see that exchanging the custom parts for off the shelf parts would shave weeks off our production schedule.

With Cisco TelePresence, everyone can take part.

I'm looking at the update. He's stable, drive slow, drive safe.

Thanks, Doc.

Welcome to your future in work, in class, on the road, in your community, or at home.

Who wants to be included?

See hello. The future is here now with Cisco TelePresence.
